Circulation

VOLUME 60
July-December, 1979

No. 1 (July)

Editorial:

- High-Density Lipoproteins, Cholesterol Transport and Coronary Heart Disease** 1
Richard J. Havel

Current Topics:

- Normal Left Ventricular Function** 4
John O. Parker and Robert B. Case
- Left Axis Deviation. A Reassessment** 12
Joseph K. Perloff, Nigel K. Roberts, and William R. Cabeen, Jr.

Original Articles:

- The Combined Effect of Smoking and Coffee Drinking on LDL and HDL Cholesterol** ... 22
Siegfried Heyden, Gerardo Heiss, Christian Manegold, Herman A. Tyroler, Curtis G. Hames, Alan G. Bartel, and Gerald Cooper
- Left Anterior Hemiblock Obscuring the Diagnosis of Right Bundle Branch Block in Acute Myocardial Infarction** 26
Samuel Sclarovsky, Ruben F. Lewin, Boris Strasberg, and Jacob Agmon
- Significance of Chronic Bifascicular Block Without Apparent Organic Heart Disease** 33
Ramesh C. Dhinra, Christopher Wyndham, Robert Bauernfeind, Pablo Denes, Delon Wu, Steven Swiryn, and Kenneth M. Rosen
- EDITORIAL: Prognosis of Patients with Chronic Bifascicular Block** 40
Borys Surawicz
- Platelet Survival Time and Thromboembolism in Patients with Mitral Valve Prolapse** 43
Peter Steele, Hugh Weily, Joseph Rainwater, and Robert Vogel
- EDITORIAL: Thromboembolic Studies in the Patient with the Prolapsed Mitral Valve. Has Salome Dropped Another Veil?** 46
Melvin D. Cheitlin
- Impaired Left Ventricular Function in Chronic Aortic Valve Disease: Survival and Function After Replacement by Björk-Shiley Prostheses** 48
Franz Schwarz, Willem Flameng, Friederike Langebartels, Michael Sesto, Paul Walter, and Martin Schlepper
- Aortoventriculoplasty for Tunnel Aortic Stenosis and Other Obstructions of the Left Ventricular Outflow Tract. Clinical and Hemodynamic Results** 59
Per G. Björnstad, Houshang Rastan, Jürgen Keutel, Alois J. Beuren, and Josef Koncz

- Increased Mitral-Aortic Separation in Discrete Subaortic Stenosis** 70
Glenn C. Rosenquist, Edward B. Clark, Hugh A. McAllister, Saroja Bharati, and Jesse E. Edwards
- Status of Patients 5 or More Years After Correction of Coarctation of the Aorta Over Age 1 Year** 74
Marius M. Hubbell, Jr., Ralph G. O'Brien, L. Jerome Krovetz, H. Page Mauck, and Dorothy G. Tompkins
- Subxiphoid Two-Dimensional Imaging of the Interatrial Septum in Infants and Neonates with Congenital Heart Disease** 80
Fredrick Z. Bierman and Roberta G. Williams
- Determination of Right Atrial and Right Ventricular Size by Two-Dimensional Echocardiography** 91
William Bommer, Lynn Weinert, Alexander Neumann, James Neef, Dean T. Mason, and Anthony DeMaria
- An Essential View in Coronary Arteriography** .. 101
P.H. Nath, G. Velasquez, W.R. Castaneda-Zuniga, C. Zollkofer, A. Formanek, and K. Amplatz
- Quantitative Coronary Angiography: Measurement of the "Critical" Stenosis in Patients with Unstable Angina and Single-Vessel Disease Without Collaterals** 106
Merri M. McMahon, B. Greg Brown, Ramon Cukingnan, Ellis L. Rolett, Edward Bolson, Morris Frimer, and Harold T. Dodge, with the technical assistance of Carol Ross
- Exercise and Human Collateralization: An Angiographic and Scintigraphic Assessment** 114
Andre J. Nolewajka, William J. Kostuk, Peter A. Rechnitzer, and David A. Cunningham
- Effect of Acute Ischemia, Nitroglycerin and Nitroprusside on Regional Myocardial Thickening, Stress and Perfusion. Experimental Echocardiographic Studies** 121
Richard E. Kerber, James B. Martins, and Melvin L. Marcus, with the technical assistance of Margaret Schrader, Gilbert Koenigsaecker, and Oscar Lim
- Regional Left Ventricular Function Assessed by Contrast Angiography in Acute Myocardial Infarction** 130
Michel Rigaud, Paulo Rocha, Jacques Boschat, Jean C. Farcot, Jean Bardet, and Jean P. Bourdarias
- Oxygen Consumption and Hemodynamic Response of Exercises Used in Training of Patients with Recent Myocardial Infarction** 140
Gerald F. Fletcher, John D. Cantwell, and Edward W. Watt

(Continued)

Effect of Extension of Infarction on Serial CK Activity	145	Dynamic Geometry of the Left Atrium and Left Ventricle in Acute Mitral Regurgitation ...	177
<i>Frederick R. Cobb, Robert G. Irvin, Richard C. Hagerty, and Charles C. Roe</i>		<i>Shigetake Sasayama, Masaaki Takahashi, Genta Osakada, Kunihiro Hirose, Hiroka Hamashima, Eizo Nishimura, and Chuichi Kawai</i>	
Venous Admixture in Human Septic Shock. Comparative Effects of Blood Volume Expansion, Dopamine Infusion and Isoproterenol Infusion on Mismatching of Ventilation and Pulmonary Blood Flow in Peritonitis	155	Scaling Current and Energy with Body Weight: Requirements for the Transthoracic Ventricular Defibrillation of Calves as They Grow from 50 to 150 Kg	187
<i>F. Jardin, M.C. Eveleigh, F. Gurdjian, F. Delille, and A. Margairaz</i>		<i>Jerry H. Gold, John C. Schuder, Harry Stoeckle, Thomas A. Granberg, Joseph C. Dettmer, and Douglas E. Schmidt</i>	
The Extraction of Circulating Catecholamines by the Lungs in Normal Man and in Patients with Pulmonary Hypertension	160	Evolution of QRS-T Relationship from Birth to Adolescence in Frank-lead Orthogonal Electrocardiograms of 1492 Normal Children	196
<i>Michael J. Sole, Milutin Drobnac, Leonard Schwartz, M. Nasir Hussain, and Edward F. Vaughan-Neil</i>		<i>P.M. Rautaharju, A. Davignon, F. Soumis, E. Boisselle, and A. Choquette</i>	
Changes in Diastolic Time with Various Pharmacologic Agents. Implication for Myocardial Perfusion	164	Case Report:	
<i>Harisios Boudoulas, Stanley E. Rittgers, Richard P. Lewis, Carl V. Leier, and Arnold M. Weissler</i>		Right Sinus of Valsalva-Right Atrial Fistula Secondary to Nonpenetrating Chest Trauma. A Case Report with Description of Non-invasive Diagnostic Features	205
Dynamic Aspects of Acute Mitral Regurgitation: Effects of Ventricular Volume, Pressure and Contractility on the Effective Regurgitant Orifice Area	170	<i>Artur DeSa'Neto, Marvin B. Padnick, Kenneth B. Desser, and Neil G. Steinhoff</i>	
<i>Chaim Yoran, Edward L. Yellin, Ronald M. Becker, Shlomo Gabbay, Robert W.M. Frater, and Edmund H. Sonnenblick</i>		Key References:

No. 2 (August)

Editorials:

Ventricular Defibrillation: Appropriate Energy Levels	219
<i>A. A. Jennifer Adgey, J. Norman Patton, Norman P. S. Campbell, and Samuel W. Webb</i>	
Emergency Defibrillation Dose: Recommendations and Rationale	223
<i>W. A. Tacker, Jr. and G. A. Ewy</i>	

Original Articles:

Factors Influencing the Success of Ventricular Defibrillation in Man	226
<i>Richard E. Kerber and William Sarnat</i>	
Determinants of Ventricular Defibrillation in Adults	231
<i>Joseph A. Gascho, Richard S. Crampton, Michael L. Cherwek, James N. Sipes, Frank P. Hunter, and William M. O'Brien</i>	

Emergency Coronary Artery Revascularization: A Possible Therapy for Acute Myocardial Infarction	241
<i>Steven J. Phillips, Chamnahn Kongtaworn, Robert H. Zeff, Mark Benson, Liberato Iannone, Thomas Brown, and David F. Gordon</i>	
EDITORIAL: Emergency Coronary Artery Revascularization of Patients with Acute Myocardial Infarction: You Can . . . But Should You?	247
<i>Henry D. McIntosh and Robert A. Buccino</i>	
Long-term Serial Angiographic Studies After Coronary Artery Bypass Surgery	250
<i>Diana F. Guthaner, Edward W. Robert, Edwin L. Alderman, and Lewis Wexler</i>	
Influence of Aortic Insufficiency on the Hemodynamic Significance of Coronary Artery Narrowing	259
<i>Robert L. Feldman, Wilmer W. Nichols, Carl J. Pepine, and C. Richard Conti</i>	

The Prognostic Value of Systolic Time Intervals in Angina Pectoris Patients	268	Hemodynamic, Pulmonary Vascular, and Myocardial Abnormalities Secondary to Pharmacologic Constriction of the Fetal Ductus Arteriosus. A Possible Mechanism for Persistent Pulmonary Hypertension and Transient Tricuspid Insufficiency in the Newborn Infant	360
<i>Ronald E. Gillilan, William P. Parnes, Mahmood Ali Khan, Richard J. Bouchard, and J. Richard Warbasse</i>		<i>Daniel L. Levin, Lawrence J. Mills, and Arthur G. Weinberg, with the technical assistance of Michael Parkey and Elizabeth Mayhew</i>	
The Noninvasive Identification of Left Main and Three-vessel Coronary Artery Disease by Myocardial Stress Perfusion Scintigraphy and Treadmill Exercise Electrocardiography	276	An Evaluation of the Left Atrial/Aortic Root Ratio in Children with Ventricular Septal Defect	364
<i>Harold Dash, Barry M. Massie, Elias H. Botvinick, and Bruce H. Brundage</i>		<i>Lucille A. Lester, Dolores Vitullo, Peter Sodt, Nancy Hutcheon, and Rene Arcilla</i>	
Evaluation of Myocardial Ischemic Damage of Various Ages by Computerized Transmission Tomography. Time-dependent Effects of Contrast Material	284	Routine Primary Repair vs Two-state Repair of Tetralogy of Fallot	373
<i>Charles B. Higgins, Paul T. Siemers, and Walter Schmidt</i>		<i>John W. Kirklin, Eugene H. Blackstone, Albert D. Pacifico, Robert N. Brown, and Lionel M. Barger, Jr.</i>	
Technetium-99m Stannous Pyrophosphate Myocardial Scintigraphy after Cardiopulmonary Resuscitation with Cardioversion	292	Physiologic Determinants of the Electrocardiographic Diagnosis of Left Ventricular Hypertrophy	386
<i>Richard Davison, Steward M. Spies, Jean Przybylek, Harry Hai, and Michael Lesch</i>		<i>Elliot M. Antman, Laurence H. Green, and William Grossman</i>	
Imaging Experimental Myocardial Infarction with Indium-111-labeled Autologous Leukocytes. Effects of Infarct Age and Residual Regional Myocardial Blood Flow	297	Two Periods of Early Ventricular Arrhythmia in the Canine Acute Myocardial Infarction Model	397
<i>Mathew L. Thakur, Alexander Gottschalk, and Barry L. Zaret</i>		<i>Elieser Kaplinsky, Satoshi Ogawa, C. William Balke, and Leonard S. Dreifus</i>	
Measurement of Aortic and Mitral Regurgitation by Gated Cardiac Blood Pool Scans	306	Dispersion of Atrial Refractoriness in Patients with Sinus Node Dysfunction	404
<i>Pierre Rigo, Philip O. Alderson, Rose M. Robertson, Lewis C. Becker, and Henry N. Wagner</i>		<i>Jerry C. Luck and Toby R. Engel</i>	
A Comparison of Simultaneous Measurements of Systolic Function in the Baboon by Electromagnetic Flowmeter and High Frame Rate ECG-Gated Blood Pool Scintigraphy	312	Electrophysiologic Abnormalities of the Sinus Node and Atrium in Patients with Bundle Branch Block	413
<i>Michael V. Green, Harold G. Ostrow, Richard N. Scott, Margaret A. Douglas, James J. Bailey, and Gerald S. Johnston</i>		<i>D. George Wyse, John H. McAnulty, Shahbudin H. Rahimtoola, and Edward S. Murphy</i>	
Accurate Volume Determination in the Isolated Ejecting Canine Left Ventricle by Two-Dimensional Echocardiography	320	Noninvasive Recording of His-Purkinje Activity in Patients with Complete Atrioventricular Block. Clinical Application of an "Automated Discrimination Circuit"	421
<i>Leland W. Eaton, W. Lowell Maughan, Artin A. Shoukas, and James L. Weiss</i>		<i>Haruhiko Takeda, Kazuto Kitamura, Tadahiro Takanashi, Takeo Tokumoto, Hajime Hamamoto, Takakazu Katoh, Isao Niki, and Yoshiaki Hishimoto</i>	
Angular Displacement of the Papillary Muscles During the Cardiac Cycle	327	Plasma Lipid Distributions in Selected North American Populations: The Lipid Research Clinic Program Prevalence Study	427
<i>Michael J. Mirro, Arthur E. Weyman, and Harvey Feigenbaum</i>		<i>The Lipid Research Clinics Program Epidemiology Committee</i>	
The Force-Interval Relationship of the Left Ventricle	334		
<i>Page A. W. Anderson, Andres Manring, Gerald A. Serwer, D. Woodrow Benson, Sam B. Edwards, Brenda E. Armstrong, Richard J. Sterba, and Richard D. Floyd, IV</i>			
Morphologic Development of the Pulmonary Vascular Bed in Experimental Coarctation of the Aorta	349		
<i>Daniel L. Levin, Lawrence J. Mills, and Michael Parkey</i>			
Noninvasive Detection of Pulmonary Hypertension in Patent Ductus Arteriosus by Pulsed Doppler Echocardiography	355		
<i>J. Geoffrey Stevenson, Isamu Kawabori, and Warren G. Guntheroth</i>			
		Case Reports:	
		Reentry Within the Atrioventricular Node: Surgical Cure with Preservation of Atrioventricular Conduction	440
		<i>Edward L. C. Pritchett, Robert W. Anderson, David G. Benditt, Jackie Kasell, Lura Harrison, Andrew G. Wallace, Will C. Sealy, and John J. Gallagher</i>	

Early Closure of the Tricuspid Valve in a Case of Ebstein's Anomaly with Type B Wolff-Parkinson-White Syndrome	446
<i>Yasushi Koiwaya, Hideki Narabayashi, Samon Koyanagi, Hideyo Matsuguchi, Senichi Tanaka, Tsutomu Imaizumi, Akio Kuroiwa, Motoomi Nakamura, and Tsumeo Hirata</i>	
Multivessel Coronary Artery Spasm	451
<i>Richard F. Dunn, David T. Kelly, Norman Sadick, and Roger Uren</i>	

Current Topics:

Second-degree Atrioventricular Block	465
<i>Douglas P. Zipes</i>	

George Lyman Duff Memorial Lecture:

Atherogenesis: A Postprandial Phenomenon	473
<i>Donald B. Zilversmit</i>

CARDIOVASCULAR SURGERY 1978

No. 2 (August)

Loss of the Improvement of Angina Between 1 and 7 Years After Aorto-coronary Bypass Surgery: Correlations With Changes in Vein Grafts and in Coronary Arteries Lucien Campeau, Jacques Lespérance, Jacques Hermann, Frederico Corbara, Claude M. Grondin, and Martial G. Bourassa	I-1
Safe Early Revascularization for Continuing Ischemia After Acute Myocardial Infarction Frederick H. Levine, Herman K. Gold, Robert C. Leinbach, Willard M. Daggett, W. Gerald Austen, and Mortimer J. Buckley	I-5
Aortocoronary Bypass Surgery: A 7-Year Follow-Up Airlie Cameron, Harvey G. Kemp, Jr., Seiichi Shimomura, Eugene Santilli, George E. Green, John E. Hutchinson, III, and Haroutune A. Mekhjian	I-9
Asymptomatic Coronary Artery Disease Managed by Myocardial Revascularization: Results at 5 Years Robert L. Thurer, Bruce W. Lytle, Delos M. Cosgrove, and Floyd D. Loop	I-14
Unstable Angina Pectoris: An Examination of Modes and Costs of Therapy Jennie J. Kronenfeld, Edgar D. Charles, Jr., John B. Wayne, Albert Oberman, Nicholas T. Kouchoukos, William J. Rogers, John A. Mantle, Charles E. Rackley, and Richard O. Russell, Jr.	I-16
Improved Survival after Surgical Therapy for Chronic Angina Pectoris Henry S. Loeb, Roque Pifarre, Henry Sullivan, Robert Palac, Robert P. Croke, and Rolf M. Gunnar	I-22
Veterans Administration Cooperative Study of Surgery for Coronary Arterial Occlusive Disease: View from a Noncooperating Hospital Joseph S. Carey, Ramon A. Cukingnan, and Gabriel G. Groner	I-30
Blood Flow in Sequential Vein Grafts J. Judson McNamara, H. Scott Bjerke, George K. T. Chung, and Collin R. Dang	I-33
Survival Following Mitral Valve Replacement for Mitral Regurgitation due to Coronary Artery Disease Martha J. Radford, Robert A. Johnson, Mortimer J. Buckley, Willard M. Daggett, Robert C. Leinbach, and Herman K. Gold	I-39
A New Cardiac Prosthesis: The St. Jude Medical Cardiac Valve. In Vivo Results Robert W. Emery, Egon Mettler, and Demetre M. Nicoloff	I-48
Primary Clinical Experience with the Hall-Kaster Valve in the Aortic Position: Results at 3 Months Including Hemodynamic Studies Sigurd Nitter-Hauge, Ivar Enge, Bjarne K. H. Sembe, and Karl Victor Hall	I-55
In Vitro Hydrodynamic Comparison of Mitral Valve Bioprostheses Shlomo Gabbay, David M. McQueen, Edward L. Yellin, and Robert W. M. Frater	I-62
Preoperative Evaluation of Subvalvular Fibrosis in Mitral Stenosis: A Predictive Factor in Conservative vs Replacement Surgical Therapy Cary W. Akins, James K. Kirklin, Peter C. Block, Mortimer J. Buckley, and W. Gerald Austen	I-71

Surgery in Active Infective Endocarditis	
James B. Young, David E. Welton, Albert E. Raizner, Tetsuo Ishimori, Alfredo Montero, Guinn A. Guinn, Kenneth Mattox, Layne O. Gentry, James K. Alexander, and Richard R. Miller	I-77
Effect of Septal Myotomy and Myectomy on Left Ventricular Systolic Function at Rest and During Exercise in Patients with IHSS	
Jeffrey S. Borer, Stephen L. Bacharach, Michael V. Green, Kenneth M. Kent, Douglas R. Rosing, Stuart F. Seides, Andrew G. Morrow, Stephen E. Epstein, Bonnie Mack, and Susan Farkas	I-82
Long-Term Follow-Up of the Hancock Bioprosthetic Heart Valve: A 6-Year Review	
Lawrence H. Cohn, J. Kenneth Koster, Robert B. B. Mee, and John J. Collins, Jr.	I-87
Late Hemodynamic Evaluation of Hancock Modified Orifice Aortic Bioprosthesis	
Joseph M. Craver, Spencer B. King, John S. Douglas, Robert H. Franch, Ellis L. Jones, Douglas C. Morris, John Kopchak, and Charles R. Hatcher, Jr.	I-93
An Important Complication of Hancock Mitral Valve Replacement in Children	
Lynn M. Kutsche, Philip Oyer, Norman Shumway, and David Baum	I-98
Effects of Nitroprusside and Dopamine on Pulmonary Arterial Vasculature in Children after Cardiac Surgery	
Larry W. Stephenson, L. Henry Edmunds, Jr., Russell Raphaely, Donald F. Morrison, William S. Hoffman, and Lorraine J. Rubis	I-104
Modified Shumacker Repair of Transposition of the Great Arteries	
John A. Waldhausen, William S. Pierce, William Berman, Jr., and Victor Whitman	I-110
Subclavian Arterioplasty for the Ipsilateral Subclavian-to-Pulmonary Artery Shunt	
Hillel Laks, William Williams, George Trusler, and Aldo Castaneda	I-115
Femoral Artery Pressure Measurement During Aortography	
David C. Brewster, Arthur C. Waltman, Patrick J. O'Hara, and R. Clement Darling	I-120
The Elderly Patient with Severe Arterial Insufficiency of the Lower Extremity: Limb Salvage by Femoro-Popliteal Reconstruction	
Frederick A. Reichle, Kevin P. Rankin, R. Robert Tyson, Charles R. Shuman, and Albert J. Finestone	I-124
Results of Ophthalmosonometry and Supraorbital Photoplethysmography in Evaluating Carotid Arterial Stenoses	
Lawrence J. Duke, Earlene E. Slaymaker, Wade C. Lamberth, and Creighton B. Wright	I-127
Temporary Left Ventricular Bypass: Factors Affecting Patient Survival	
William F. Bernhard, Robert L. Berger, Joseph P. Stetz, James G. Carr, Nancy A. Colo, John R. McCormick, and Michael C. Fishbein	I-131
Beneficial Effects of Pulsatile Perfusion in the Hypertrophied Ventricle During Ventricular Fibrillation	
Thomas J. Bixler, Patrick G. Magee, John T. Flaherty, Timothy J. Gardner, and Vincent L. Gott	I-141
Mild Ventricular Dysfunction Following Cold Potassium Cardioplegia	
Robert J. Ellis, Edward W. Gertz, Judith Wisneski, and Paul A. Ebert	I-147
Comparison of Myocardial Protection with Nifedipine and Potassium	
Patrick G. Magee, John T. Flaherty, Thomas J. Bixler, Donald Glower, Timothy J. Gardner, Bernadine H. Bulkley, and Vincent L. Gott	I-151
Protection of Mitochondrial Function During Ischemia by Potassium Cardioplegia: Correlation with Ischemic Contracture	
James D. Sink, Gary L. Pellom, William D. Currie, W. Randolph Chitwood, Jr., Ronald C. Hill, and Andrew S. Wechsler	I-158
Evaluation of Hypothermic Cardioplegia in Ventricular Hypertrophy	
Thomas R. Coughlin, Sidney Levitsky, Michael O'Donoghue, Larry Williams, Ruel N. Wright, Keith Roper, and Harold Feinberg	I-164
Rate-Pressure Product and Myocardial Oxygen Consumption During Surgery for Coronary Artery Bypass	
Philip L. Wilkinson, John R. Moyers, Thomas Ports, Kanu Chatterjee, Daniel Ulyott, and William K. Hamilton	I-170

SUPPLEMENTS

TO

CIRCULATION

VOLUMES 59 and 60

JULY-DECEMBER 1979

Subject Index to ABSTRACTS, AHA 52nd Scientific Sessions, Supplement II, October 1979, is included in that issue.

CARDIOVASCULAR SURGERY 1978

SUPPLEMENT SUBJECT INDEX

A

Adenosine triphosphate

Protection of mitochondrial function during ischemia by potassium cardioplegia: correlation with ischemic contracture, I-158

Amputation

Elderly patient with severe arterial insufficiency of the lower extremity: limb salvage by femoro-popliteal reconstruction, I-124

Anesthesia, effects of

Rate-pressure product and myocardial oxygen consumption during surgery for coronary artery bypass, I-170

Angell-Shiley valve

In vitro hydrodynamic comparison of mitral valve bioprostheses, I-62

Angina pectoris

Improved survival after surgical therapy for chronic angina pectoris, I-22

Loss of the improvement of angina between 1 and 7 years after bypass surgery: correlations with changes in vein grafts and in coronary arteries, I-1

Angina pectoris, unstable

Unstable angina pectoris: an examination of modes and costs of therapy, I-16

Angiography

Femoral artery pressure measurement during aortography, I-120

Aortic defects

Primary clinical experience with the Hall-Kaster valve in the aortic position: results at 3 months including hemodynamic studies, I-55

Aortic valve

Late hemodynamic evaluation of Hancock modified orifice aortic bioprosthesis, I-93

Long-term follow-up of the Hancock bioprosthetic heart valve: a 6-year review, I-87

Primary clinical experience with the Hall-Kaster valve in the aortic position: results at 3 months including hemodynamic studies, I-55

Aortography

Femoral artery pressure measurement during aortography, I-120

Arterioplasty

Femoral artery pressure measurement during aortography, I-120
Subclavian arterioplasty for the ipsilateral subclavian-to-pulmonary artery shunt, I-115

Artery, coronary

Aortocoronary bypass surgery: a 7-year follow-up, I-9

Asymptomatic coronary artery disease managed by myocardial revascularization: results at 5 years, I-14

Blood flow in sequential vein grafts, I-33

Loss of the improvement of angina between 1 and 7 years after aortocoronary bypass surgery: correlations with changes in vein grafts and in coronary arteries, I-1

Rate-pressure product and myocardial oxygen consumption during surgery for coronary artery bypass, I-170

Survival following mitral valve replacement for mitral regurgitation due to coronary artery disease, I-39

Veterans Administration Cooperative Study of surgery for coronary arterial occlusive disease: view from a noncooperating hospital, I-30

Artery, femoral

Elderly patient with severe arterial insufficiency of the lower extremity: limb salvage by femoro-popliteal reconstruction, I-124

Femoral artery pressure measurement during aortography, I-120

Artery, pulmonary

Effects of nitroprusside and dopamine on pulmonary arterial vasculature in children after cardiac surgery, I-104

Subclavian arterioplasty for the ipsilateral subclavian-to-pulmonary artery shunt, I-115

Artery, subclavian

Subclavian arterioplasty for the ipsilateral subclavian-to-pulmonary artery shunt, I-115

Atrial septum

Modified Shumacker repair of transposition of the great arteries, I-110

B

Ballock-Taussig shunt

Subclavian arterioplasty for the ipsilateral subclavian-to-pulmonary artery shunt, I-115

Blood flow

Blood flow in sequential vein grafts, I-33

Blood pressure, femoral

Femoral artery pressure measurement during aortography, I-120

Bypass surgery

Aortocoronary bypass surgery: a 7-year follow-up, I-9

Beneficial effects of pulsatile perfusion in the hypertrophied ventricle during ventricular fibrillation, I-141

Blood flow in sequential vein grafts, I-33

Elderly patient with severe arterial insufficiency of the lower extremity: limb salvage by femoro-popliteal reconstruction, I-124

Improved survival after surgical therapy for chronic angina pectoris, I-22

Loss of the improvement of angina between 1 and 7 years after aortocoronary bypass surgery: correlations with changes in vein grafts and in coronary studies, I-1

Mild ventricular dysfunction following cold potassium cardioplegia, I-147

Rate-pressure product and myocardial oxygen consumption during surgery for coronary artery bypass, I-170

Temporary left ventricular bypass: factors affecting patient survival, I-131

Unstable angina pectoris: an examination of modes and costs of therapy, I-16

Veterans Administration Cooperative Study of surgery for coronary arterial occlusive disease: view from a noncooperating hospital, I-30

C

Calf studies

New cardiac prosthesis: the St. Jude Medical cardiac valve. In vivo results, I-48

Cardiac output

Veterans Administration Cooperative Study of surgery for cor-

onary arterial occlusive disease: view from a noncooperating hospital, I-30

Cardiogenic shock

Temporary left ventricular bypass: factors affecting patient survival, I-131

Cardioplegia

Comparison of myocardial protection with nifedipine and potassium, I-151

Evaluation of hypothermic cardioplegia in ventricular hypertrophy, I-164

Mild ventricular dysfunction following cold potassium cardioplegia, I-147

Protection of mitochondrial function during ischemia by potassium cardioplegia: correlation with ischemic contracture, I-158

Carpenter-Edwards valve

In vitro hydrodynamic comparison of mitral valve bioprostheses, I-62

Cat studies

Comparison of myocardial protection with nifedipine and potassium, I-151

Chest pain

Safe early revascularization for continuing ischemia after acute myocardial infarction, I-5

Children

Effects of nitroprusside and dopamine on pulmonary arterial vasculature in children after cardiac surgery, I-104

Important complication of Hancock mitral valve replacement in children, I-98

Subclavian arterioplasty for the ipsilateral subclavian-to-pulmonary artery shunt, I-115

Cineangiography

Effect of septal myotomy and myectomy on left ventricular systolic function at rest and during exercise in patients with IHSS, I-82

Circulatory support

Temporary left ventricular bypass: factors affecting patient survival, I-131

Congenital heart disease

Modified Shumacker repair of transposition of the great arteries, I-110

Congestive heart failure

Surgery in active infective endocarditis, I-77

Contracture, ischemic

Protection of mitochondrial function during ischemia by potassium cardioplegia: correlation with ischemic contracture, I-158

D

Dog studies

Beneficial effects of pulsatile perfusion in the hypertrophied ventricle during ventricular fibrillation, I-141

Evaluation of hypothermic cardioplegia in ventricular hypertrophy, I-164

Dopamine

Effects of nitroprusside and dopamine on pulmonary arterial vasculature in children after cardiac surgery, I-104

Doppler ultrasound

Results of ophthalmoscopy and supraorbital photoplethysmography in evaluating carotid arterial stenoses, I-127

E

Ejection fraction

Effect of septal myotomy and myectomy on left ventricular systolic function at rest and during exercise in patients with IHSS, I-82

Elderly patient

Elderly patient with severe arterial insufficiency of the lower extremity: limb salvage by femoro-popliteal reconstruction, I-124

Endocarditis

Surgery in active infective endocarditis, I-77

Exercise testing

Effect of septal myotomy and myectomy on left ventricular systolic function at rest and during exercise in patients with IHSS, I-82

F

Femoro-popliteal reconstruction

Elderly patient with severe arterial insufficiency of the lower extremity: limb salvage by femoro-popliteal reconstruction, I-124

Femoral artery pressure measurement during aortography, I-120

Fibrillation, ventricular

Beneficial effects of pulsatile perfusion in the hypertrophied ventricle during ventricular fibrillation, I-141

Fibrosis, subvalvular

Preoperative evaluation of subvalvular fibrosis in mitral stenosis: a predictive factor in conservative vs replacement surgical therapy, I-71

G

Glenn shunt

Subclavian arterioplasty for the ipsilateral subclavian-to-pulmonary artery shunt, I-115

Grafts

Blood flow in sequential vein grafts, I-33

Femoral artery pressure measurement during aortography, I-120

Loss of the improvement of angina between 1 and 7 years after aortocoronary bypass surgery: correlations with changes in vein grafts and in coronary arteries, I-1

Veterans Administration Cooperative Study of surgery for coronary arterial occlusive disease: view from a noncooperating hospital, I-30

H

Hall-Kaster valve

Primary clinical experience with the Hall-Kaster valve in the aortic position: results at 3 months including hemodynamic studies, I-55

Hancock valve

Important complication of Hancock mitral valve replacement in children, I-98

In vitro hydrodynamic comparison of mitral valve bioprostheses, I-62

Late hemodynamic evaluation of Hancock modified orifice aortic bioprosthesis, I-93

Long-term follow-up of the Hancock bioprosthetic heart valve: a 6-year review, I-87

Hemodynamic evaluation

Late hemodynamic evaluation of Hancock modified orifice aortic bioprosthesis, I-93

Primary clinical experience with the Hall-Kaster valve in the aortic position: results at 3 months including hemodynamic studies, I-55

Hypertrophy, ventricular

Beneficial effects of pulsatile perfusion in the hypertrophied ventricle during ventricular fibrillation, I-141

Evaluation of hypothermic cardioplegia in ventricular hypertrophy, I-164

Hypothermia

Evaluation of hypothermic cardioplegia in ventricular hypertrophy, I-164

Mild ventricular dysfunction following cold potassium cardioplegia, I-147

I

Infants

Modified Shumacker repair of transposition of the great arteries, I-110

Subclavian arterioplasty for the ipsilateral subclavian-to-pulmonary artery shunt, I-115

Ionescu-Shiley valve

In vitro hydrodynamic comparison of mitral valve bioprostheses, I-62

Ischemia, lower extremity

Elderly patient with severe arterial insufficiency of the lower extremity: limb salvage by femoro-popliteal reconstruction, I-124

Ischemia, myocardial

Beneficial effects of pulsatile perfusion in the hypertrophied ventricle during ventricular fibrillation, I-141

Protection of mitochondrial function during ischemia by potassium cardioplegia: correlation with ischemic contracture, I-158

Rate-pressure product and myocardial oxygen consumption during surgery for coronary artery bypass, I-170

Safe early revascularization for continuing ischemia after acute myocardial infarction, I-5

L

Left ventricle

Beneficial effects of pulsatile perfusion in the hypertrophied ventricle during ventricular fibrillation, I-141

Effect of septal myotomy and myectomy on left ventricular systolic function at rest and during exercise in patients with IHSS, I-82

Evaluation of hypothermic cardioplegia in ventricular hypertrophy, I-164

Temporary left ventricular bypass: factors affecting patient survival, I-131

Limb salvage

Elderly patient with severe arterial insufficiency of the lower extremity: limb salvage by femoro-popliteal reconstruction, I-124

M

Mitochondrial function

Protection of mitochondrial function during ischemia by potassium cardioplegia: correlation with ischemic contracture, I-158

Mitral valve

Important complication of Hancock mitral valve replacement in children, I-98

In vitro hydrodynamic comparison of mitral valve bioprostheses, I-62

Long-term follow-up of the Hancock bioprosthetic heart valve: a 6-year review, I-87

Preoperative evaluation of subvalvular fibrosis in mitral stenosis: a predictive factor in conservative vs replacement surgical therapy, I-71

Survival following mitral valve replacement for mitral regurgitation due to coronary artery disease, I-39

Mustard procedure

Modified Shumacker repair of transposition of the great arteries, I-110

Myectomy

Effect of septal myotomy and myectomy on left ventricular systolic function at rest and during exercise in patients with IHSS, I-82

Myocardial infarction

Safe early revascularization for continuing ischemia after acute myocardial infarction, I-5

Myocardial protection

Comparison of myocardial protection with nifedipine and potassium, I-151

Evaluation of hypothermic cardioplegia in ventricular hypertrophy, I-164

Mild ventricular dysfunction following cold potassium cardioplegia, I-147

Protection of mitochondrial function during ischemia by potassium cardioplegia: correlation with ischemic contracture, I-158

Myotomy

Effect of septal myotomy and myectomy on left ventricular systolic function at rest and during exercise in patients with IHSS, I-82

N

Nifedipine

Comparison of myocardial protection with nifedipine and potassium, I-151

Nitroprusside

Effects of nitroprusside and dopamine on pulmonary arterial vasculature in children after cardiac surgery, I-104

O

Occlusive disease

Aortocoronary bypass surgery: a 7-year follow-up, I-9

Asymptomatic coronary artery disease managed by myocardial revascularization: results at 5 years, I-14

Loss of the improvement of angina between 1 and 7 years after aortocoronary bypass surgery: correlations with changes in vein grafts and in coronary arteries, I-1

Veterans Administration Cooperative Study of surgery for coronary arterial occlusive disease: view from a noncooperating hospital, I-30

Occlusive disease, aorto-iliac

Femoral artery pressure measurement during aortography, I-120

Ophthalmosonometry

Results of ophthalmosonometry and supraorbital photoplethysmography in evaluating carotid arterial stenoses, I-127

Oxygen consumption, myocardial

Rate-pressure product and myocardial oxygen consumption during surgery for coronary artery bypass, I-170

P

Perfusion, pulsatile

Beneficial effects of pulsatile perfusion in the hypertrophied ventricle during ventricular fibrillation, I-141

Photoplethysmography, supraorbital

Results of ophthalmosonometry and supraorbital photoplethysmography in evaluating carotid arterial stenoses, I-127

Potassium

Comparison of myocardial protection with nifedipine and potassium, I-151

Mild ventricular dysfunction following cold potassium cardioplegia, I-147

Protection of mitochondrial function during ischemia by potassium cardioplegia: correlation with ischemic contracture, I-158

Pump assist

Temporary left ventricular bypass: factors affecting patient survival, I-131

R

Radionuclide assay

Effect of septal myotomy and myectomy on left ventricular systolic function at rest and during exercise in patients with IHSS, I-82

Rat studies

Protection of mitochondrial function during ischemia by potassium cardioplegia: correlation with ischemic contracture, I-158

Rate-pressure product

Rate-pressure product and myocardial oxygen consumption during surgery for coronary artery bypass, I-170

Regurgitation, mitral

Survival following mitral valve replacement for mitral regurgitation due to coronary artery disease, I-39

Reperfusion

- Comparison of myocardial protection with nifedipine and potassium, I-151

Revascularization

- Asymptomatic coronary artery disease managed by myocardial revascularization: results at 5 years, I-14
- Blood flow in sequential vein grafts, I-33
- Mild ventricular dysfunction following cold potassium cardioplegia, I-147
- Safe early revascularization for continuing ischemia after acute myocardial infarction, I-5
- Veterans Administration Cooperative Study of surgery for coronary arterial occlusive disease: view from a noncooperating hospital, I-30

Risk factors

- Improved survival after surgical therapy for chronic angina pectoris, I-22
- Survival following mitral valve replacement for mitral regurgitation due to coronary artery disease, I-39
- Unstable angina pectoris: an examination of modes and costs of therapy, I-16

S

Septal hypertrophy

- Effect of septal myotomy and myectomy on left ventricular systolic function at rest and during exercise in patients with IHSS, I-82

Shumacker procedure

- Modified Shumacker repair of transposition of the great arteries, I-110

Shunt, subclavian-to-pulmonary

- Subclavian arterioplasty for the ipsilateral subclavian-to-pulmonary artery shunt, I-115

St. Jude Medical cardiac valve

- New cardiac prosthesis: the St. Jude Medical cardiac valve. In vivo results, I-48

Staphylococcus infection

- Surgery in active infective endocarditis, I-77

Stenosis, carotid artery

- Results of ophthalmosonometry and supraorbital photoplethysmography in evaluating carotid arterial stenoses, I-127

Stenosis, mitral

- Preoperative evaluation of subvalvular fibrosis in mitral stenosis: a predictive factor in conservative vs replacement surgical therapy, I-71

Stenosis, subaortic

- Effect of septal myotomy and myectomy on left ventricular systolic function at rest and during exercise in patients with IHSS, I-82

Surgery, infective endocarditis

- Surgery in active infective endocarditis, I-77

Surgery, intracardiac

- Effects of nitroprusside and dopamine on pulmonary arterial vasculature in children after cardiac surgery, I-104

Systolic function

- Effect of septal myotomy and myectomy on left ventricular

systolic function at rest and during exercise in patients with IHSS, I-82

Late hemodynamic evaluation of Hancock modified orifice aortic bioprosthesis, I-93

T

Transposition of great arteries

- Modified Shumacker repair of transposition of the great arteries, I-110

Tricuspid valve

- Long-term follow-up of the Hancock bioprosthetic heart valve: a 6-year review, I-87

V

Valve replacement

- Important complication of Hancock mitral valve replacement in children, I-98
- In vitro hydrodynamic comparison of mitral valve bioprostheses, I-62
- Long-term follow-up of the Hancock bioprosthetic heart valve: a 6-year review, I-87
- New cardiac prosthesis: the St. Jude Medical cardiac valve. In vivo results, I-48
- Preoperative evaluation of subvalvular fibrosis in mitral stenosis: a predictive factor in conservative vs replacement surgical therapy, I-71
- Primary clinical experience with the Hall-Kaster valve in the aortic position: results at 3 months including hemodynamic studies, I-55
- Survival following mitral valve replacement for mitral regurgitation due to coronary artery disease, I-39

Ventricular dysfunction

- Beneficial effects of pulsatile perfusion in the hypertrophied ventricle during ventricular fibrillation, I-141
- Evaluation of hypothermic cardioplegia in ventricular hypertrophy, I-164
- Mild ventricular dysfunction following cold potassium cardioplegia, I-147

Veterans Administration Coronary Cooperative Study

- Veterans Administration Cooperative Study of surgery for coronary arterial occlusive disease: view from a noncooperating hospital, I-30

W

Wadsworth Veterans Administration Hospital Study

- Veterans Administration Cooperative Study of surgery for coronary arterial occlusive disease: view from a noncooperating hospital, I-30

Waterston shunt

- Subclavian arterioplasty for the ipsilateral subclavian-to-pulmonary artery shunt, I-115
